ABOUT ME

After 10 years in the military I decided it was time for a new adventure. I decided on Asia and went to Taiwan to learn Chinese.

I enjoy the problem-solving aspect of programming, and relish the opportunity to learning something new and expanding my skill set.

LANGUAGES

English – Native
Polish – Fluent
French – Intermediate
Chinese – Intermediate

EXPERIENCE

Lead Developer
2021/06 - Present | Eqlaim – Shanghai, China
Co-founded and developed a Business Interruption insurance claim management system using FastAPI and Vue.js.

Computer Science Teacher
2018/09 - 2019/10 | Shanghai High Tech Creative School - Shanghai, China
Taught a High School AP-certified Computer Science course to multiple grade levels.
- Developed and taught a curriculum in Java and Python teaching OOP basics while injecting side projects in AI/ML, web and mobile app development.

Lead Developer
2019/04 - 2021/04 | DuanDuanZu - Shanghai, China
Co-founded and built a AirBnB-esque system for commercial spaces in Shanghai.
- Built with Django on the backend, Vue.js on the frontend and a mobile applet in the WeChat ecosystem. Built fully within a TDD mindset while using CI/CD onto AWS services.

English Teacher – Game Developer
2017/06 – 2018/09 | K&H International School – Shanghai, China
Taught children from ages 3 to 10 the fundamentals of the English language.
- Developed a small JavaScript based game in the Unity engine to facilitate student recognition and retention of key vocabulary.

Armour Officer
2011/01 – 2015/08 | Canadian Armed Forces –Edmonton, Canada
An Armoured Officer for 6 years, I acted in many roles ranging from Troop Leader in charge of 4 tank crews, to Course Officer where I was responsible for over 120 personnel in training the next-generation of tank commanders.
